Lancaster, Ky.

## HUN HORRORS.

### Described By Eyewit- ness.

Dr. Newell Dwight Hillis, noted clergyman and lecturer, came to Cincinnati Tuesday to tell the Rotary Club and guests what he saw of German war atrocities.

Dr. Hillis said he had photographs showing the merciless work of the Germans in occupied territory in Belgium and France.

"Photographs of the bodies of all persons are evidence of unspeakable German atrocities," he said. "Pictures of mutilated women are everywhere."

"The life of a girl weighs nothing against a German soldier's depraved mind. I will give you one example of German efficiency, committed by the devil himself. Take the case found in the diaries of German soldiers."

"The notebook of Private Mac-Thomson contains this entry: 'Our soldiers are so excited we are like wild beasts. Today we destroyed eight houses, with those inside, bayoneted two men with their rifles and a girl of 18.'

"The little one almost unnerved me, so innocent was her expression." "From another diary you read this German soldier's statement: 'I saw the dead body of a young girl nailed to the outside door of a cottage by her hands.' She was about 14 or 15 years old."

"In retreating from Malines eight drunken German soldiers were marching thru the streets. A little child about two years old toddled out and a soldier stuck the child on his bayonet and thus carried it away while his comrades sang."

"Another time the Germans cut off both hands of a boy 16 years old. At the inquest affidavits were taken from 25 witnesses who saw the boy before he died."

Dr. Hillis, as a member of the special commission sent to France to investigate Teuton horrors, gathered first-hand data that authoritatively shows the "clawed hoof" of the beast.

### Stamp Perforation.

The perforation of stamps was first commenced in England in 1853, for receipt and draft stamps, and for postage stamps in 1854. Prior to that period stamps were separated by means of scissors or a knife or similar means and in some cases those who required many resorted to the use of a roulette, a kind of cog-wheel furnished with small cutters, making a series of cuts between the stamps.

### Two Things Worth Having.

Growing plants are healthful in two ways. First, they absorb carbon dioxide given off by the lungs of persons in the house, and give off pure oxygen to the air. Second, the evaporation of moisture from the foliage and from the porous flower pots to one of the best ways to prevent the harmful drying out of air artificially warmed. You can't have too many plants or too many children in the house.

### Sought Information.

It was at a Blackmore club in a small country town. The president of the club, a young lawyer, was giving his views on the Fitzpatrick-Barton controversy, and about his argument thus: "I feel sure Shakespeare wrote the plays, because he was a lawyer. No common man could have written them." A timid little woman, catching his eyes, inquired anxiously, "Are there then no uncommon men but lawyers?"—Judge.

### Average Accidents.

Women are always the first to be called upon wherever and whenever an accident occurs. The average man is indeed, only too glad to do what he can, but he doesn't know what to do. Nine times out of ten the only help he can render is to rush to a telephone and call a doctor or ambulance to the scene, and he certainly deserves the highest praise for such commendable work, but the average woman has it in her to help materially at such a time.

### Be Fair With Children.

Do not keep a list of your children's faults constantly before you, and do not, if you would be happy and at the same time make these little ones happy, elaborate upon their failings before company. On the other hand, if you must speak of the day's events, emphasize their good deeds, tell of the splendid work done during school hours, and admit in the right spirit that these small members of the household save you many weary steps.

## Hardy Flowering Plants and Bulbs For Fall Planting

\$2.00 worth of hardy plants and bulbs for fall planting—POSTPAID—for only \$1.00. Write for particulars and FREE FALL FLOWER BOOK, which tells what to plant, how to plant and when to plant.

## LAND TO RENT BY MASTER COMMISSIONER

GARRARD CIRCUIT COURT.  
Geo. R. Aikinson, et al., Plaintiffs,  
VS.  
Thos. Adkinson, et al., Defts.

Pursuant to an order of the Garrard Circuit Court in the above styled case the undersigned Master Commissioner of said Court will on

**SATURDAY, APRIL 13, 1918,**  
at one o'clock, a. m. at the Court House Door in Lancaster, Kentucky, rent to the highest and best bidder for the balance of the year 1918, the following described land: Located in Garrard County, Kentucky, on Lick Log branch and bounded on the north by the lands of E. P. Jones; on the east by the lands of Jas. Layton heirs; on the south by the lands of James Layton's heirs; on the west by the lands of Theo Cotton, and contains about 16 acres. Being the land belonging to the late Alva Adkinson.

The renter of said land will be required to give bond with good security, payable to said Commissioner, and drawing interest at six per cent from maturity, due January 1, 1919.

W. H. BROWN, M. C. G. C. C.  
H. C. Kauffman, Atty for Pliffs.

## PAINT LICK

Mrs. Brown of Lancaster visited her daughter, Mrs. Dave Hervez the next week.

Mrs. R. K. Stone and children of Richmond, visited relatives here the past week.

Miss Sadie Ralston of Georgetown College spent the week-end with the homefolks.

Misses Mae Smith and Viola Cayhod of Berea were recent guests of Miss Marie Ledford.

**Tested White and Tested Yellow seed corn.**

Hudson, Hughes & Farnau.  
The monthly meeting of the W. C. T. U. was held at the home of Mrs. F. H. Smith on Friday afternoon.

Miss Lucretia Spurlock of Shelbyville was the guest of her sister, Mrs. U. M. Burgess, Saturday and Sunday.

Rev. L. N. Bowling filled his regular appointment at the Christian church Sunday morning and Rev. J. R. Moorman of Lancaster spoke in the evening to a large audience in the interest of the "Men and Millions Movement."

## TAKE GOOD CARE OF MANURE

Estimates Worked on Basis of Tonnage Fed Vary Greatly, Because of Methods of Handling.

Manure increases crop yields. The less the rainfall the more important the application of manure becomes. The higher priced the crops are the greater the returns of the manure. The manure adds plant food and organic matter to the soil which is of more importance than it at first seems, as the plant can get along with less moisture when the soil is well supplied with available plant food such as manure furnishes as it decays.

## PROTECTING PEAS IN STORE

Damage by Weevil Overcome by Use of Air-Slaked Lime or Liquid Carbon Bisulphide.

The difficulty of keeping seed peas free of weevil damage is overcome in a simple manner by storing them in air-slaked lime at the rate of one part of the lime to two parts of peas by weight. Liquid carbon bisulphide will keep the seed if it be dipped for a few minutes in it, but the full benefit of the liquid seems to depend upon the percentage of moisture in the seed at the time of dipping.

## Stained Glass.

In making stained glass windows, every bit of the work is done by hand, and it is amazing to realize how many times each piece of glass must be handled. An operator tells of counting up one day and finding that no less than 12 times were necessary. All the lead work is done by hand, too, even the opening of the little slots into which the glass is fastened.

## Tree Lore.

The reason most trees lean toward the northwest, says an old tree trimmer, is because in the summer our prevailing winds are from the southeast; the ground then is soft and the trees being in full leaf, the wind tilts them toward the northwest. In the winter the northern winds do not have this effect on the trees because they are denuded of leaves and the ground is frozen or hard.

## HUNTERS TAKE NOTICE.

This Agreement Witnesseth: That in order to protect the game on our lands for a period of three years we bind ourselves not to hunt thereon, nor permit anybody else to do so, and we further agree to prosecute with diligence all persons who violate the game laws of Kentucky or trespass upon our lands for the purpose of hunting. And we further agree to act as Deputy Game Wardens for the purpose of carrying out this agreement. Except each of us have the right to kill rabbits on our farms or permit it to be done by another under our supervision, or the supervision of some responsible and reliable person selected by us.

This November 15th, 1915.

## This Is That Wonderful Medicine

We told you we had gone after and Secured the Exclusive Sale for in This Section.

This picture shows the exact size of the bottle containing the great Vin Hepatica, prescription which we told you just week we had secured the exclusive agency for, here—a medicine we stand back of because it is a real medicine prepared in one of the finest medical laboratories in the United States. We know what it is—know what it is made of. It is a combination of eight medicines extracted from the medical roots, herbs and berries of the woods and fields, whose healing and tonic properties have been employed for centuries by the medical profession for kidney, liver and stomach troubles, nervousness, sleeplessness, loss of appetite and run down condition.

### WHAT OTHERS SAY

Miss Ora Stewart, of 23 Irving Apts., Nashville, Tenn., says: "Vin Hepatica has done wonders for me, and I want to recommend it to everyone suffering as I did from loss of sleep and appetite, tired out feeling, sluggishness of liver, etc."

Mr. Claud M. Marshall, farmer, Davidson Co., Tenn., just out of Nashville, says: "If anyone ever was in a bad fix, I was, until I took Vin Hepatica. Work on the farm is very hard and the hours are long and while I had plenty to eat, the more I ate the worse I got. I would easily run out of breath. Vin Hepatica has enabled me to do my work with ease and pleasure and I can now eat anything I want."

George W. Kline, railroad conductor of Chester, Pa., writes: "For a long time I was a very sick man. I had gastritis, nervous indigestion, was constipated, had no appetite, could not sleep, felt dead tired all the time. Vin Hepatica benefited me from the very first dose. Now I feel better than I have felt for years."

Rev. G. R. Harris, Route 11, West Nashville, 60 years minister of the gospel and four years Confederate Veteran, states: "I had gone down in my entire system; had stiffening and soreness of the joints, hardly able to work at all. I took Vin Hepatica and am now doing a good day's work for a man of my age. Can heartily recommend Vin Hepatica as a wonderful medicine and Universal System Purifier. It has brought me back to health again."

L. F. Sweeney, well known West Nashville traveling man, writes: "Vin Hepatica cured me of indigestion, swimming in the head, bloating, etc. I am now as fit as a fiddle, sleep as soundly as a baby and can eat anything."

G. M. Spencer, well known contractor and painter, of 618 Commerce St., Nashville, says: "I had sluggish feeling all the time; was languid. Sometimes my back seemed like it would break in two. What Vin Hepatica has done for me is nothing short of marvelous. There is health in every drop."

Mrs. Alma Norman, 25th and West End Ave., Nashville, said that she was on the verge of nervous prostration and the slightest noise would scare her almost out of her wits. She says effect of Vin Hepatica in her case is almost magical. "I am completely recovered. Thank goodness for the day Vin Hepatica was brought to my attention."

Come in and let us tell you more about this truly wonderful medicine. It may be just the thing you need for your trouble.
